

IEL Open Day

The IEL doctoral programme is run by a pool of well-known universities. It has a strong international orientation and provides a highly reputed scholarly education. The programme also offers a limited number of 3-year scholarships to its students .

Further details on the programme and partner institutions can be found at

<http://www.cleicentre.org/index.html>

On June 13th 2008 IEL will host an "open day", during which potential candidates to the 2008/2009 class will have an opportunity to meet IEL faculty and current students.

Interested candidates are asked to send their open day applications to Ms Leanne Duggan (iel@carloalberto.org) by MAY 26, 2008

The application should include:

- a curriculum vitae
- a 1 pages abstract summarizing the candidate's research interests

Upon request, IEL might offer financial support to a limited number of participants so as to help them meet their travel and accommodation expenses. A final decision to this effect will be reached and made known by May 31st.
