Study abroad: earning credits abroad

- Important Notice:
 - For the semester abroad, it is expected that you complete the equivalent of one semester (at least), which would require 30 ECTS.
 - Since the EMEA Study Guidelines only permit 24 ECTS as electives, you should plan to take at least one course (for 6 ECTS) as part of your specialization during your semester abroad.
 - Alternatively, you could continue the missing credits when you return to Marburg, however that may require you to remain beyond the recommended 4 semesters in total for your degree.

Study abroad: Planning reliability

- In certain ways, you will begin your study abroad experience in Marburg...
- The foreign university might release the academic calendar or course programme only on short notice.
- Maybe the only way to get a learning agreement is to leave for the stay abroad and showing-up in person at the partner university.
- Please adjust your expectations and be prepared to experience some frictions. **Gathering information, e.g., from prior exchange students, will help you to anticipate difficult issues and deal with them better!**
- We will provide you with support in case of problems.
