Blockchain Summit 2025

International Conference

The "SmaCoBiz" conference in Lisbon brings together interdisciplinary experts to explore the legal, technological, and regulatory aspects of Smart Contracts and digital assets in the context of business and finance. The event aims to foster international collaboration, share innovative research, and address emerging challenges in the digitalization of legal and financial systems.

The workshop is organised by the project group SmaCoBiz of the Centre Responsible Digitality (ZEVEDI).
