

# Minisymposium

## Impact of Diffusible Signals at host cell- microbe-interfaces

With lectures by

### **Prof. Dr. Victor Sourjik**

Max-Planck-Institute for terrestrial Microbiology

„Chemotactic responses of  
commensal and pathogenic  
*Escherichia coli* to host signals“

### **Dr. Gregor Fuhrmann**

Helmholtz Centre for Infection Research

Helmholtz Institute for Pharmaceutical Research

„Bacteria-derived vesicles with  
inherent antibiotic activity“

January 30th, 2020, 2:00 – 3:30 p.m.  
Seminar room BMFZ (+1/61410)
