

**Sie erhalten Unterricht in folgenden Fächern:**

- II Interdisziplinäre klinische Vorlesung III Differenzialdiagnose, Pathophysiologie, klin.Pharmakologie (4 SWS)
- SE Anatomie/med. D.J. SWS)
- SE Anatomie/med. D.J. SWS)
- Uaf. Allgemeinerkrank., Biochemik (5,7 SWS)
- Uaf. Innere Med., Biochemik (3 SWS)
- PG Innere Med., Seminare zum Biochemik (2 SWS)
- Uaf. Praktikum der Dermatologie und Venerologie (6,8 SWS)
- SE Dermatologie (mit Biochemik) (2,4 SWS)
- SE Klinische Pharmakologie, Pharmakotherapie (2,3 SWS)
- VE Klin. Umweltmedizin (1 SWS)
- VE Klinisch-Pathologische Konferenz (2 SWS)
- VE Infektiologie, Immunologie (2 SWS) – nur im Sommersemester
- CF Infektiologie, Immunologie (3,4 SWS) – nur im Sommersemester
- Klinische Pharmakologie (1,3 SWS)

## Einführungs- und PJ-Infoveranstaltung

|                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
