AECED Project

Aesthetic and embodied learning for democracy

Pedagogical Framework, Guides and Practice Companions

The AECED resources support educators, facilitators and organisations in integrating Aesthetic and Embodied Learning for Democracy (AELD) into their contexts. Each phase-specific Guide offers conceptual orientation and pedagogical foundations. Each Practice Companion provides practical tools, reflective prompts and facilitation resources.

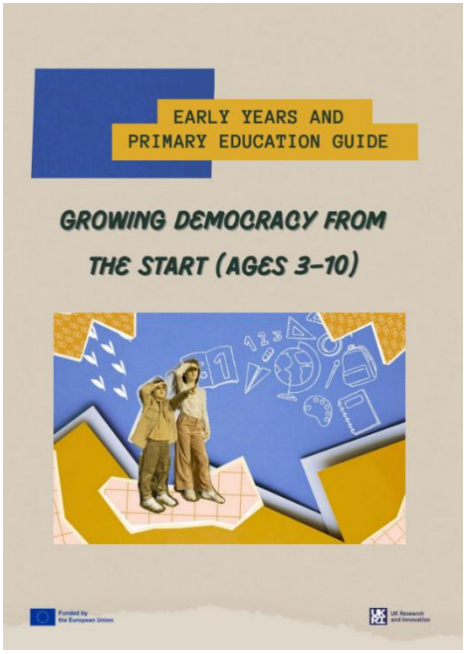
This document serves as a single-entry point to the full suite of materials.

Pedagogical Framework

The Framework is also accessible through Zenodo: Connecting with Democracy - a Pedagogical Framework for Education for Democracy

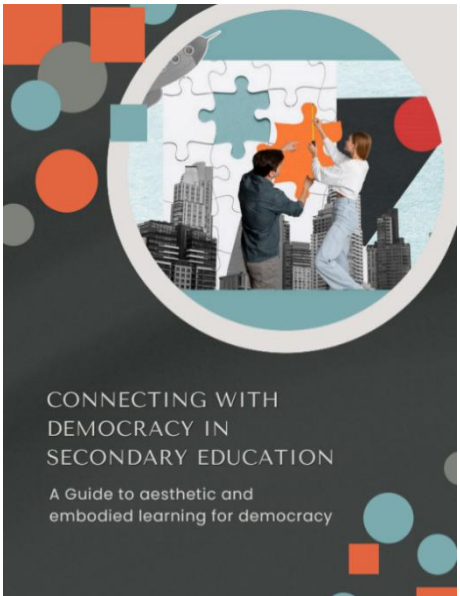
Early years and primary education

Guide: Growing democracy from the start (Ages 3–10): Early years and primary education guide



Practice companion: Early years and primary education practice companion

Secondary education

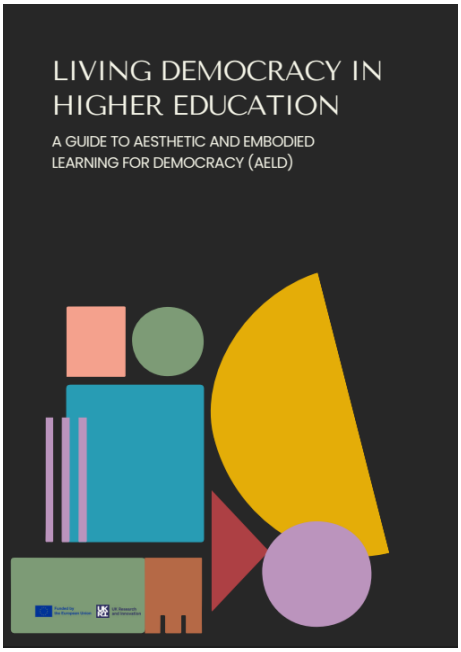


Guide: Connecting with democracy in secondary education: A Guide to aesthetic and embodied learning for democracy

Practice Companion: Connecting with democracy in secondary education: A practice companion for secondary education

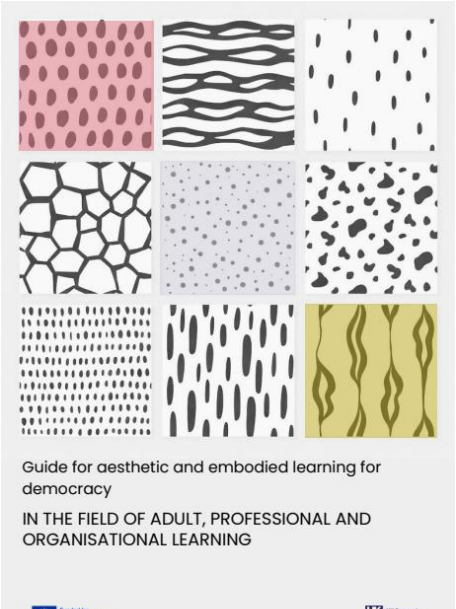
Higher Education

Guide: Living democracy in higher education: A guide to aesthetic and embodied learning for democracy (AELD)



Practice companion: Living democracy in higher education: A guide to educational activities and pathways for practice in aesthetic and embodied learning for democracy (AELD)

Adult, professional and organisational learning (APOL)



Guide: Guide for aesthetic and embodied learning for democracy in the field of adult, professional and organisational learning

Practice companion: Developing democratic engagements and transformation in adult, professional and organisational learning: A practice companion for inspiring your facilitation and change-making
