The Faculty of Medicine invites applications for a

**Tenure Track Professorship for Pharmacology and Toxicology**

**(W1 Tenure Track to W2)**

at the Institute of Pharmacology to be filled at the earliest possible date. This professorship is funded by the Tenure Track Programme of the German Federal Government and the Federal States and is initially limited to six years.

The Institute of Pharmacology is situated in the Biochemical-Pharmacological Center (BPC), where research is currently focused on epithelial biology, neurobiology and signal transduction. The main research area of the Institute of Pharmacology is molecular pharmacology with particular emphasis on intercellular communication and signal transduction mechanisms of epithelial cells both during homeostasis and regeneration, as well as in cancer.

The successful applicant is expected to strengthen the research priorities of the Faculty of Medicine by establishing an independent research group and to actively participate in research alliances and initiatives of the Faculty of Medicine and the University of Marburg. Teaching responsibilities include courses in general and clinical pharmacology for students of medicine and dentistry.

This call is explicitly aimed at researchers (m/f/d) in the early stages of their scientific careers. The duration of the employment in research and science after obtaining the doctoral degree should not exceed four years (in medicine seven years). Furthermore, applicants should not have received their doctorate at the University of Marburg. In case the doctoral degree was obtained at the University of Marburg, the applicant should have worked in research and science outside of the University of Marburg for at least two years thereafter (in accordance with § 64 Abs. 3 Hessisches Hochschulgesetz HHG, the State of Hessen Higher Education Act).

We are looking for a personality with initial outstanding scientific achievements and an innovative scientific profile that demonstrates the potential for a further successful career in science at the highest international level. Pre-requisites are a university degree in medicine, pharmacy or natural sciences, an excellent doctorate and a particular pedagogical aptitude. Teaching experience in pharmacology and a license to practice medicine or pharmacy are of advantage. The applicant is expected to show exceptional initiative in the independent acquisition of external research funding.

The employment requirements of §§ 61, 62 and especially 64 HHG apply. The Tenure Track professorship is initially a grade W1 fixed term (6 years) position. If the requirements under general German civil service law are met, the applicant shall be granted a temporary civil service status for a period of six years. In the event of a positive evaluation of professional, pedagogical and personal aptitude, the applicant will be granted a civil service status for life, combined with the assignment of a W2 permanent professorship. Further information on tenure track professorships at the University of Marburg is available at [https://www.uni-marburg.de/de/universitaet/profil/berufungskultur/tenure-track](https://www.uni-marburg.de/de/universitaet/profil/berufungskultur/tenure-track).

The Universities of Giessen and Marburg have founded a research alliance with the TH Mittelhessen University of Applied Sciences (the Research Campus Central Hessen), within the scope of which the two medical faculties of Giessen and Marburg practice a structured cooperation based on coordinated priorities. Applicants are therefore expected to be willing to cooperate across universities and faculties and to participate in joint projects.

The University of Marburg attaches great importance to the intensive supervision of students and doctoral candidates and expects from its lecturers and thus from the applicants a distinctive presence at the university, a high degree of commitment in the field of academic teaching and an intensive participation in the planned further development of medical education.

We support women and therefore explicitly encourage them to apply. We welcome individuals with children - the University of Marburg is committed to the goal of a family-friendly university. People with disabilities in the terms of the SGB IX (§ 2 Abs. 2, 3 SGB IX) are preferred if they are equally qualified for the position. Application and interview costs will not be reimbursed.

Please send your application documents (copies) including a research and a teaching concept using the application form provided on [www.uni-marburg.de/de/fb20/fachbereich/services/formulare](http://www.uni-marburg.de/de/fb20/fachbereich/services/formulare) to the President of the University of Marburg, Biegenstraße 10, 35032 Marburg, Germany, by 20.03.2020, stating your business and private address. In addition, applications in a PDF file can be sent to bewerbung@verwaltung.uni-marburg.de.
