

Retreat 2018

9. Jan. 18

## Program

### Wednesday, January 17<sup>th</sup>

10:30		Arrival and check in
11:00	Carsten Culmsee	"Connecting shape to function - mitochondrial dynamics in cellular stress responses"
11:45	Christian Bökel	"It is not who you are, but where you are and what you do - Stem cell regulation and signal transduction by niche pathways"
12:30		Lunch
13:30		Management session
14:30		Coffee break
15:00	Poster Session	Graduate and associate graduate students present their projects and progress
17:45	Henrik Bringmann	"Control and regenerative functions of sleep"
18:30		Dinner
19:30	Walter Witke	"Insights to the physiological role of the WAVE-complex(es)"
20:30		Get together (Backstube)

### Thursday, January 18<sup>th</sup>

08:30		Breakfast
09:15	Jörg Großhans	"Dynamics of cortical domains"
10:00	Robert Grosse	„Nuclear actin dynamics during cell division “
10:45		Coffee break
11:15	Monika Hassel	"FGFR signalling and tissue separation in <i>Hydra</i> "
12:00	Dominik Oliver	tba
12:45		Lunch
Ca. 14:00		Departure
