Research and work experience

- March 2023 - today** Microcosm Earth Center, Marburg
Master student in WG Dr. Julia Kurth
topic: Characterization of a methyl chloride converting enzyme system in *Acetobacterium dehalogenans*
- July 2022 - September 2022** Mesocosm GmbH, Homberg (Ohm)
Internship and short-term employment
Metabolism study (C-14 labeled chemical, with goats and chicken), GLP experience, ecotoxicology (effects of chemicals on aquatic plants and animals)
- November 2020 - March 2022** Max-Planck-Institut for Terrestrial Microbiology, Marburg
Bachelor student in WG Prof. Dr. Lotte Sogaard-Andersen
Bachelor thesis "Characterization of MXAN_4666 and MXAN_4667, two MshEN domain containing proteins of *Myxococcus xanthus*"
- November 2020 - January 2021** Philipps-University Marburg
Student Assistant
Supervising first semester students in the basic module of microbiology and preparing the course materials

Education

- April 2022 - today** Philipps-University Marburg
Master "Molecular and Cellular Biology"
striving for degree: Master of Science
- October 2018 - March 2022** Philipps-University Marburg
Bachelor Biology - specialisation in microbiology
final qualification: Bachelor of Science (Grade 1.3)

Knowledge and skills

languages German (Native), English (B2), Latin (Latinum), ancient Greek (Graecum)

Computer Skills 10 Finger Typing, Microsoft Office, R programming (basics)

additional introduction in GLP, first experience with C-14,
participation in Procareer.MINT (Mentoring Hessen) from June 2023 to June 2024

Hobbies

Gardening (growing own vegetables), Travelling (self-planned city trips),
Photography (Macro photography of plants, photography of animals and of
buildings during city trips)
